

New Impact series PL 'c' version

*Fluid Free
piezoresistive
technology*

*Self
diagnostics*

*3 years warranty
thanks to the
thick in contact
diaphragm*

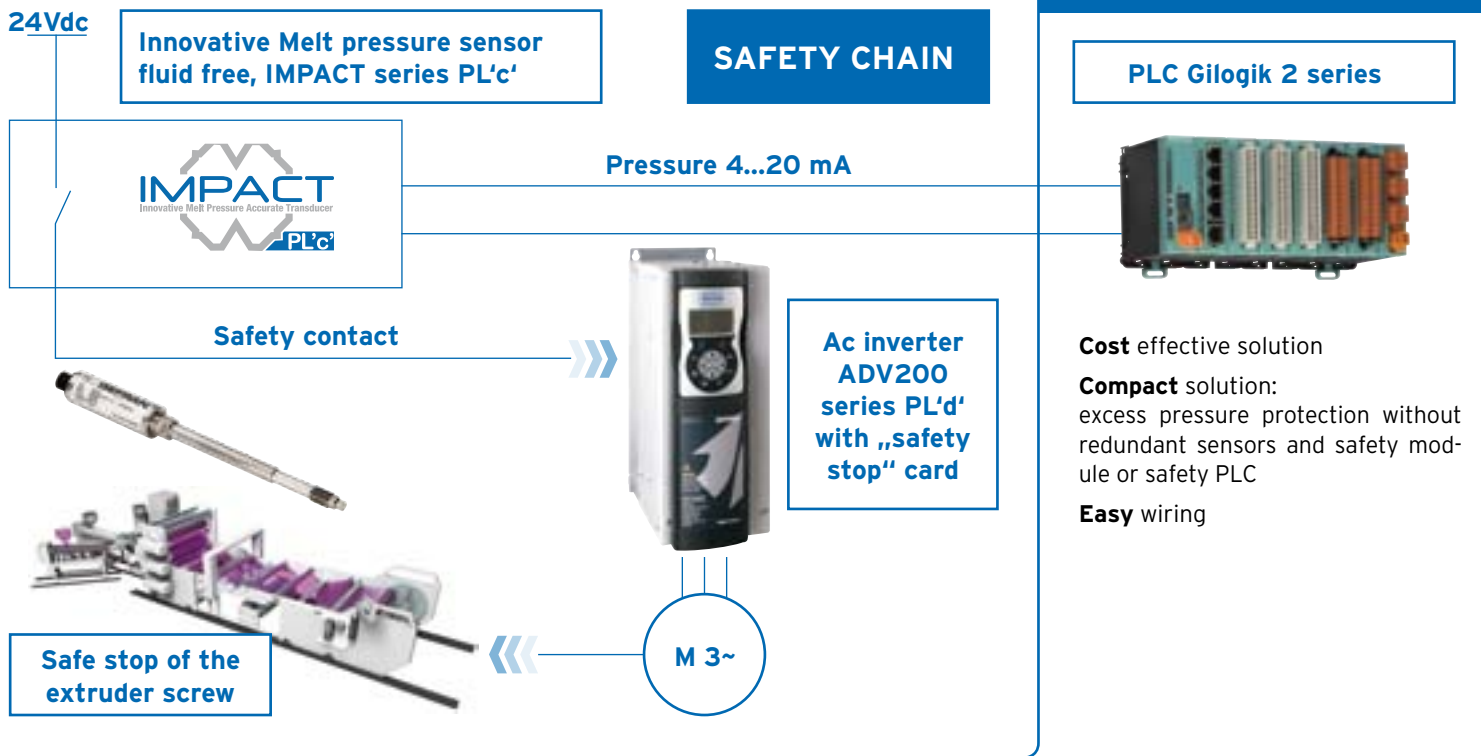

*Optional relay output
for excess pressure
protection*

EN 13849-1 and Namur Compliance

- The new Machinery Directive 2006/42/CE became applicable on 29/12/2009 replacing the old 98/37/CE.
- At the heart of the Directive are the essential health and safety requirements (EHSRs).
- In the new EN1114-1 are specified all significant hazards, hazardous situations and events relevant to all types of screw extruders for plastic and rubber.
- To protect the extruder against eventual excess pressure, a pressure sensing system in accordance with **EN ISO 13849-1 PLr=c is required.**
