# MELT PRESSURE TRANSMITTER FOR POLYMER PRODUCTION PLANTS

## SIMPLY THE BEST MELT TRANSDUCER FOR POLYMER PRODUCTION PLANTS

- IMPACT: the most performing fluidfree transducer
- Wide pressure ranges from 0...10 - 0...1000 bar
- HART communication protocol
- ATEX certification for potentially explosive areas
- Active compensation of the variations in media temperature
- Availability of the process temperature (chip) via HART
- Functional safety SIL2 (EN 61508 EN 62061) and PL'd' (EN 13849-1)

HIX SERIES  
ALL IN ONE!

MECHANICAL ADAPTERS  
AVAILABLE READY TO USE
